Noun Task Cards

Part One--Common and Proper Noun Skills

Level One---Begin by using cards 1 -3 as definition flashcards. Students need to know the definition to proceed.

Level Two--Use cards 4-31 to help students differentiate between common and proper nouns. Students should be able to defend their answer and identify parts of the card that need capitals.

Level Three--Use cards 32-48 to practice tricky proper nouns (family nicknames, earth, school subjects). Students should be able to explain why sometimes these tricky nouns are proper and sometimes they are not. None of the proper nouns are capitalized. They will need to find them.

Bonus Cards

The following cards are some more tricky common/proper nouns. They are not numbered, and you may not want to include them. Some groups are not ready for these. These cards include cardinal directions (which are sometimes adjectives) and seasons.

She lives in the North Central Plains of Texas.

The witch comes from the west.

These flowers only bloom in the spring.

He excited to go see the Winter Olympics.

Part Two--Singular and Plural Nouns

Level One- cards 49,50, 74,75 - The students should be able to say the definition of these words before moving on.

Level Two-- **cards 51-71**-I go through these cards the first time just sorting them as singular and plural. Then, I use them again and have the students identify which ones follow the rules and which are irregular. You can then practice the irregular forms in spelling.

Level Three— **cards 76-89**— I start by teaching students how to decide if an 's is needed. When something is being possessed, even if for a short time, there are always two NOUNS together in the sentence. If a verb follows the noun in question, it is a plural noun, not a case for possession. I have students look at the sentences and say if it is a case for possession or not.

Level Four-- cards 51-73-- With these cards, I have students say whether you should ad ' or s'. I just reuse all the singular and plural cards from level two plus the ' and s' cards.

Level Five-- cards 90-99--With these cards, I have students write a sentence that shows the possession. I let them write on their desks with an Expo marker. You could also take a grade if you wanted or put this part in a center.
